The course you are about to take is based on Barbara Minto's best-selling textbook, "The Minto Pyramid Principle: Logic in Writing, Thinking and Problem Solving." The course instructs you to read chapters in the book, and then presents video tutorials and interactive exercises that will deepen your understanding of what the book says.
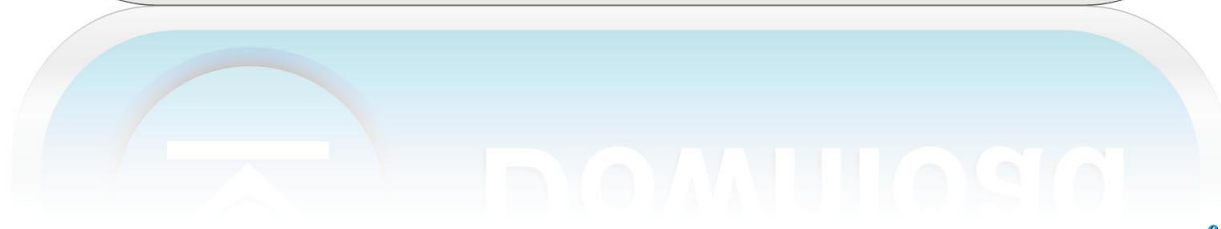

Part One of the course is introductory. After that, each part of the course covers an essential concept in the book in video form, then takes you through exercises to make sure that the concepts "stick" in your mind. Thus, you will be asked to read:

For Part Two	Chapter 1, "Why a Pyramid Structure?"
For Part Three	Chapter 2 "The Substructures Within the Pyramid"
	Chapter 5 "Deduction and Induction: The Difference
For Part Four	Chapter 3 "How to Build a Pyramid Structure"
	Chapter 4 "Fine Points of Introductions"
For Part Five	Chapter 6 "Imposing Logical Order
	Chapter 7 "summarizing Grouped Ideas"

You will completely control the pace at which you work. If you choose, you can see the right answer immediately, or you can keep repeating the exercise until you get it right. At any time you can print out key learning points for easy reference.
